

OS assignment 5 - group 94

[Akshat Patiyal 2023062

Dhruv Jaiswal 2023200]

Simple Multithreader implementation -

To run the code we have to do the following set up

```
make clean  
make  
make execute
```

We have implemented the multi-threader in a way such that we calculate the number of operations to make and equally divide them among the threads

There has been equal contribution by both members in the project

Akshat Patiyal 2023062 - Mutex and lambda execution

Dhruv Jaiswal 2023200 - Thread creation and distribution
